

We at Vsoft Infoware, Inc., Princeton, New Jersey, are glad to inform you that the Patent Office of the Government of India granted the patent for our INTEGRATED INTERACTIVE SYSTEMS AND METHODS WITH SINGLE TRANSACTIONAL DATABASE AND REPORTING APPLICATION FOR ECLINICAL TRIALS in January 2023.

This patent was filed in 2010 in USA and India in response to the Critical Path Initiative to transform the way FDA-regulated medical products are developed, evaluated, and manufactured. In 2006 the FDA issued the Critical Path Opportunities List, which provided 76 opportunities to address the declining number of innovative medical products being submitted for FDA approval.

As part of this initiative, Vsoft Infoware Inc. developed its eClinical product, Clinfoware®, to improve clinical trials success rates and reduce trial costs. For more details on Clinfoware®, please contact us at info@vsoftinfoware.com or visit us at www.vsoftinfoware.com
